**'Sublime Science Show' Friday 11<sup>th</sup> March**

Dear Parents/Carers,

To kick start **British Science Week 2022**, we will be having a Sublime Science Show for the whole school. This will provide the children with the opportunity to experience some hands on science and take part in various activities ranging from magic tricks to leaf blower experiments.

The show will take place on **Friday 11<sup>th</sup> March 2022** in the school hall. Each class will have a 45 minute show, presented by real sublime scientists. The shows are the perfect mix of spectacular science experiments and hands on activities, including:

- 'Magic' Tricks and Spectacular Experiments where the children's mouths will fall wide open with amazement! (And they'll learn about the scientific method too!)
- Sweet Making as a Science Experiment - Every single child will be grinning from ear to ear when they taste them! (As well as understand chemical reactions!)
- Spectacular Science - Bubbles, Smoke & Flying things where the children learn all about pressure, air & forces too
- Goopy Slime Making - the children will make their own slime to take home & show their parents (and learn all about polymers too!)

We are asking for a small contribution of **£4.50** to cover the cost of the show. Please can this be paid on Arbor by **Friday 4<sup>th</sup> March 2022**.

We look forward to hosting this event.

Thank you for your continued support.

Mrs Cetin Salik

Science Lead.
