

Dear Parents & Carers

Reception through to Year 6 Influenza Immunisation Session

We are due to come to your school on **Thursday 20th October** to deliver the above immunisation to students in reception to year 6 only.

As you are aware, we are now using e-consent platform for our all our immunisation programmes. For parents to complete the electronic forms **please can you share the attached letter with all parents/carers as soon as possible.** The e-consent form can be completed online on any platform including mobile phone, tablet or computer. If parents have any difficulty, please direct them to the immunisation team and we can assist (contact details on attached letter).

Please if you haven't already sent us the class lists, could you do so at your earliest convenience.

In order to support the success of our e-consent platform and increase uptake in your school communities, please can you arrange for regular reminders to be sent to parents to complete their online forms twice weekly, and for the link to be displayed on the school website.

Please can you inform parents that we will be closing the consent portal 48 hours prior to the session to give us time to triage the forms that we have received.

The E-consent process requires that the team are allocated a room which has internet access and access to electric sockets to charge their tablets/ laptops. Please contact the team if this will be an issue.

As always thank you for your continued support in delivering the immunisation programme in Enfield. **We would appreciate if you could confirm that you have received this e-mail.**

Kind Regards

Enfield Immunisation Team
