**Year 5 ETSP workshop**

Dear Parents/Carers,

As part of our science, we are delighted to have booked Engineering4kids to deliver a robot workshop to our Year 5 class.

The workshop aims to provide an insight into engineering and is based on the theme 'connections'- this is also British Science Week's theme. Pupils will 'connect' with each other by working together in teams of three to try and solve a problem; they will build a robot and then control it for an activity e.g. getting the robots to move different coloured rings to a central space.

**Details are as follows:**

**Date:** Wednesday 26<sup>th</sup> April

**Place:** School Hall

**Cost:** Free

Thank you for your support.

Yours sincerely,  
Mrs Salik  
**Science Lead**
