

'Atomic Adventure'

Please support your child by contributing £4.

Tuesday 4th February 2025

Dear Parents/Carers,

To celebrate British Science Week 2025 and to further inspire and excite our children about science, we invited Big Foot Arts Education to run an event called 'Atomic Adventure'.

'Atomic Adventure' is an exciting and dynamic, science-based experience, which aims to bring the topic to life by engaging children in live demonstrations and inspire scientific curiosity.

The show will take place on Wednesday 12th March 2025 in the school hall. We will have two shows one for KS1 and for KS2.

A voluntary contribution of £4.00 is necessary to cover the cost of the workshop. Unfortunately, without sufficient contribution, the workshops will not go ahead. Please make payments through Arbor by Friday 7th March.

Here are some photos of workshops from other schools showing the kinds of experiments your child can expect to experience.

We look forward to hosting this exciting event and thank you for your continued support.

Mrs Cetin Salik
Science Lead
