Re - Trust-wide Curious Maths Competition

Dear Parents and Carers,

We are excited to be taking part in the Trust-wide Curious Maths Competition led by Sara Tilley; maths consultant who continues to work closely with NSCT schools!

The heats for the competition will take place in school on the 2nd and 3rd of June. Children from Year 3 to Year 6 will work collaboratively in teams of four to complete a range of exciting maths challenges, including fluency, reasoning and problem-solving activities.

The heats will take place virtually within classrooms and will be led online. Children will record their answers as a team on quiz sheets provided by the school. Some rounds will allow children to discuss answers together, while in others they may work independently or in pairs before agreeing on a final team response.

All questions will be linked to the National Curriculum expectations for each year group, with a range of challenge included. The competition is designed to encourage teamwork, mathematical thinking and confidence.

Following the heats, two winning teams from each year group will be selected to represent the school in the finals, which will take place on the 15th and 16th of June.

If your child is selected to take part in the finals, you will receive a further letter with additional details.

We are very much looking forward to seeing the children enjoy this exciting opportunity and celebrate their mathematical skills.

Kind regards,

Mrs. Ubor  
Class Teacher
