Early Collection Option Extended until Friday

Dear Parents and Carers,

Further to our communication earlier this week, the forecast continues to indicate **very high temperatures**, and therefore we have decided to extend our early collection arrangements to Friday.

Children may be collected from the playground between **1:30pm and 1:45pm** if you feel this would be beneficial for your child during the hot weather. We are mindful that our school building is not set-up for these high temperatures.

The school day will continue as normal for pupils who remain in school with collection at 3:25 as there are no clubs running this week (except After School Care).

We will continue to implement a range of measures as directed by the DfE to keep children comfortable and safe, including:

- Regular water breaks
- Access to shaded areas wherever possible
- Reduced time outdoors during the hottest parts of the day
- Calm indoor learning activities
- Encouraging children to wear lightweight clothing and sun hats where appropriate

We will continue to monitor weather conditions closely and review any arrangements should circumstances change.

If you intend to collect your child early, please ensure they are collected from the playground between **1:30pm and 1:45pm**.

Thank you for your continued support and cooperation during this period of exceptionally warm weather.

Kind Regards,

Ashan Venn
Deputy Headteacher
